

What is GMG

Global Odeme is a payment institution regulated by Central Bank of Turkey and fully complying with all national and international requirements related to cross border payments including Wolfsburg Payment Standards and FATCA guidance.

Started its journey in payment service in 2016.

Using brand as "Get Money Global - GMG", in 2017.

Acquired its license from Banking Regulation and Supervision Agency Turkey (BRSA) and become a full SWIFT membership

Its remit flow system is used in 10+ countries.

Obtained its registration as a branch in the U.S. to operate as a foreign company

Partnership with Turkish Post Office (PTT)

Going forward, we plan to digitizing our products and services

What we do

GMG provides a cost-effective and transparent service for secure international payments, servicing;

banks, foreign exchange businesses, money transfer institutions, payment aggregators and e-commerce businesses.

Our clients have improved their margins on existing transactions and increased transaction income by using value added services; Cash payouts , bank account, transfers, bank card transfers, collection accounts, bill payments

Global Odeme delivers a "global ACH" capability using an innovative payments framework specifically designed for high volumes of low value cross-border payments. This provides our clients with access to Local clearing schemes within our networking countries.

Our Network

GMG provides customers with access to the largest independent global payment network all over the world.
GMG's network is comprised of banks, exchange houses, retailers and SMEs, as well as digital channels;

385.000+ locations worldwide; covering regions such as Europe, Africa & Asia

50.000+ offices; covering regions such as Russia & CIS

200.000 locations worldwide; covering regions such as Middle East & GCC

What we believe

We believe in real-time processing of payments without manual intervention, improved and seamless customer service providing visibility of transactions, and enhanced control and clarity of liquidity flows.

GMG has made substantial investments in its core processing platform, people and banking network relationships

This enables us to overcome many of the issues associated with traditional cross-border payments, offering more services to our customers at competitive prices.
